Summary of the Event

(eg: What did the speaker emphasize on)

The seminar mainly focused on the future applications of various Bioinformatics tools..

The speaker emphasized on basic and high end bioinformatics tools used in daily basis in genome identification and sequencing and made the students with clear explanation on the next generation sequencing analysis. Speaker emphasized on bioinformatics role in automated sequencing techniques, prediction of promoter and coding region of genes, 3Dimensional structure modeling, microbial genome sequencing, drug designing, docking of biochemical compounds and receptors.. sir enlightened the students with career prospect for bioinformatics includes suitable positions in various hospitals, healthcare companies, pharmaceutical companies, data science companies, research and development labs, and companies related to biotechnology, drug designing and development, bio-analytics, proteomics and clinical research etc.

Speaker made the seminar with clear understanding of the roles, advances and applications of bioinformatics in various fields like biomedical, molecular medicine, energy development, biotechnology, environmental restoration, homeland security, forensic investigations, agricultural, and animal science.

Event Report

Type of the Event	Faculty Development Program
Title of Event	Awareness Program on Innovation
Date	18 th September , 2021
Time & Duration	11:30 am – 1:00 pm
Venue	Online - Youtube
Objective of Event	<p>This event improves the safety of their campuses, keeps track of key resources, and enhances access to information in the learning environment. Teachers can even use this technology to create “smart lesson plans,” rather than the traditional stoic plans of yesteryear. ICT education is the mode of education that uses information and communications technology to support, enhance, and optimize the delivery of information. Worldwide research has shown that ICT can lead to improved student learning and better teaching methods. Funding types include grants, bonds, federal or state awards, private donations, or internal money that is allocated for a company or an organization make aware of different types of funding resources</p>
Organizing Department	PG Department of Computer Science
Faculty associated for the event	Dr. K.Sunitha, G.Sunanda
Target Audience	Faculty
No. of Participants	200
Brochure/Poster/Flyer /Notice of Event	
Resource Person/Guest Prof.S.Jeelani	Prof S Jeelani Director, Center for distance & virtual learning university of hyderabad

PRINCIPAL

Summary of The Event

(eg:what did Speaker emphasized on)

Designing language assessment during online learning

Academic writing and research methodologies were conducted on 7th & 8th April by all PG Department in collaboration with IQAC. It's a 2 day program and the speaker for the first day was Dr C.V.Ranjani, Department of Commerce, OU.

This topic helped for identifying research topics, generating ideas and turning ideas into research topics.

The 2nd Day speaker is Ms Richa Sharma from JNU University. She spoke about the quality of research in which she said paper should be written first and abstract later.

outcome of event

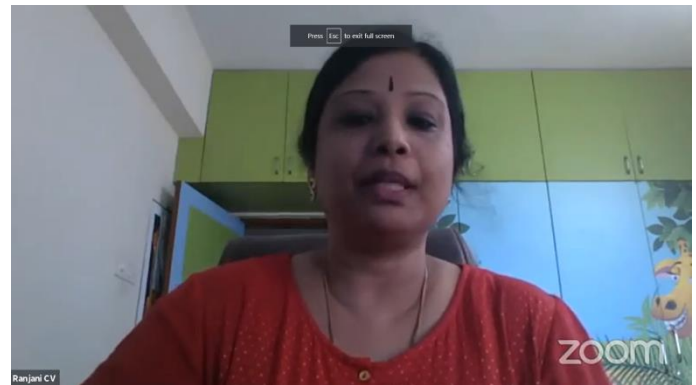

Research improves services and treatments not just for you but also for future generations. It helps develop new tests for diagnosis, treatments and processes that could eventually help. You may gain access to treatments that are not yet readily available to the general public. Faculty had an awareness of 1) contextualization of knowledge; 2) praxis and technique; 3) critical thinking; and, 4) research and communication.
