The Department of Biotechnology organized a four-day workshop on “Hands on training in Isolation, Production & Purification of industrially important enzymes”, in collaboration with Nitza Bioventure, Hyderabad (22nd-25th Sep 2018). A Total of 40 students attended the workshop and got trained in industrial production of rennin(from mucor) and bromelin (pine apple) enzyme, quality check and down-stream processing techniques. Students had an opportunity to perform dialysis and column chromatography and SDS page techniques. Enzymes were immobilized using sodium alginate method and then tested for application on meat tenderization (bromelin) and cheese production (Renin). At the end of each day students reported their results and on the final day students reported their yields and the best group was awarded with prize

Summary of the Event

(eg: What did the speaker emphasize on)

Organized a four-day workshop on Plant medicine study from bioactive compounds and drug designing in collaboration with Nitza Biologicals pvt.ltd. The workshop focused on identification and screening of plants producing secondary metabolites. workshop began with sample preparation and phytochemical screening for the presence of alkaloids, flavonoids, glycosides etc. The students performed various tests for secondary metabolite production depending on the metabolite (ex:alkaloids-Wagner's test), (Flavonoids- alkaline reagent test), (Test for saponins- Foam Test), Test for terpenoids- Salkowskis test), Tannins-(Braymers test)), etc. Followed by day2- students done TLC plate preparation, antimicrobial activity: anti bacterial and anti fungal activity.

On day 3 students learned Thin layer chromatography: preparation camber plates, plate visualisation and calculation of rf value. Performed column chromatography: slurry column preparation solvents for elution and MIC (Minimum Inhibitory concentration).

On day 4 students were familiarized with Bioinformatics tools like structure visualisation and molecular docking -structure based drug designing. The students were fully satisfied with the 4 day workshop and were practiced with hands on experience on many techniques which were important in addition to their regular curriculum.
